

# LEGACY

**SUBARU**

*Confidence in Motion*

## Connect to your life.

---

Nothing drives like a Subaru, because nothing else is built like one. Each Subaru model is engineered to put your mind at ease, while giving you the power to deeply engage with your life. That's why most of our models are built with Symmetrical All-Wheel Drive at their core. By using all four wheels to grip the road, and offering remarkable balanced and stability, Symmetrical AWD forges a tighter connection between you and the road. This enhanced control is combined with design that is focused on your safety. Inside the connection is just as invigorating as you discover design and technology that adapts to all your activities, while putting you at the centre of the driving experience. The connection a Subaru driver experiences with the vehicles expands their confidence, and reveals new experiences.

## Designed to capture passion.

---

Unleash the power within to pursue what you want most. The all-new Legacy reconnects you with the thrill of driving with a sportier, more responsive ride and AWD capability to get you where you need to go with Symmetrical AWD. Its stylish looks are especially pleasing to the eye, while its all-new, refined interior offers upgraded technology and plush materials that are pleasing to the touch. This sporty sedan caters to all your comforts gives you free reign to indulge in true driving enjoyment.

## In every corner – feel the connection.

---

There's plenty of power in balance and symmetry. The almost perfect symmetrical layout Subaru created with their Symmetrical AWD and the SUBARU BOXER engine applies power delivery to all four wheels all the time and pairs it with exceptional traction for amazing stability and control in almost any condition. You'll enjoy agility in adverse weather, immediate and exhilarating traction right at the moment of acceleration and increased stability in the corners for a unique feeling of control at all times.

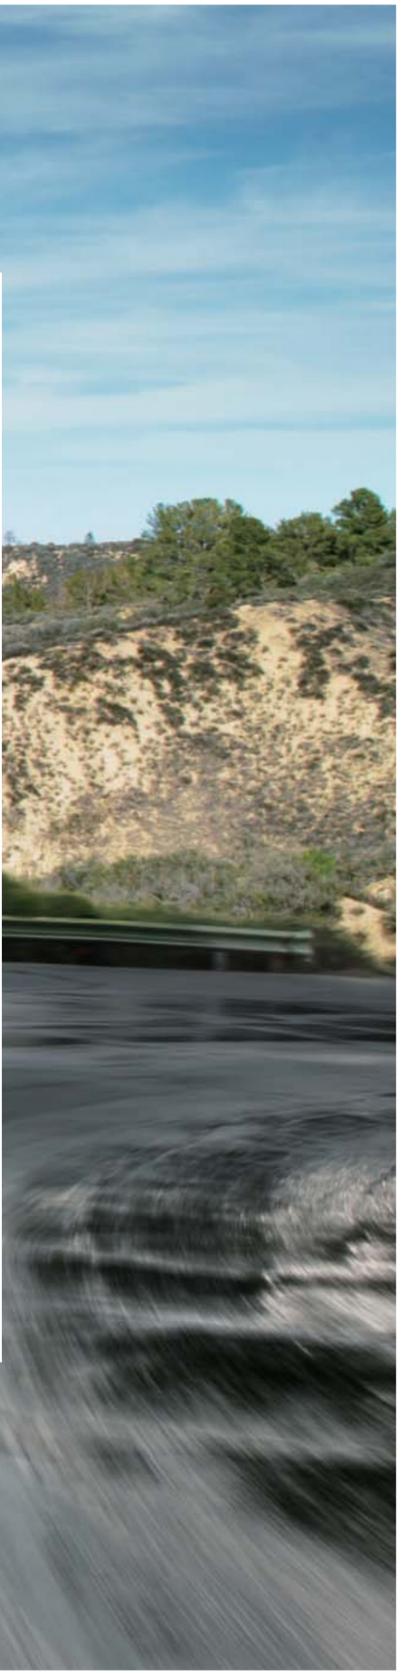

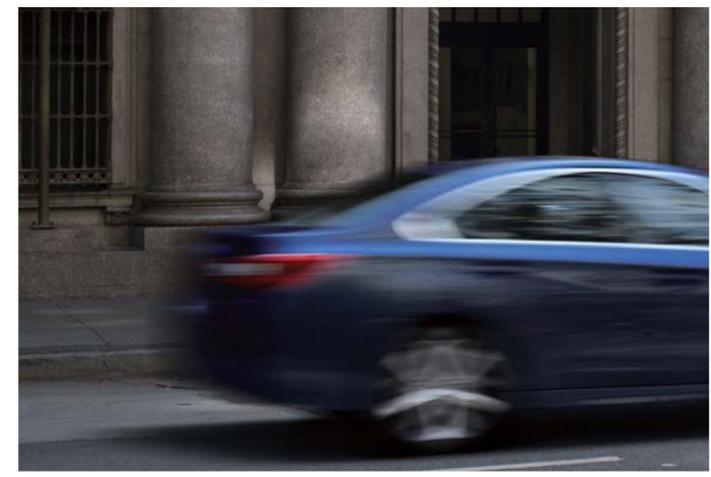

## Discover new ways to embrace the joy of driving.

---

More balanced and confident than most, the all-new Legacy owes its sporty, high performance to its SUBARU BOXER engine and the efficient Lineartronic Continuous Variable Transmission includes new shift controls for smooth, exciting acceleration to maximise your driving enjoyment and also makes class-leading fuel efficiency possible at every speed.

## More refined. More immersive. More Legacy.

---

True to its form, the new Legacy is sportier than ever. Strong character lines along the side and a more aggressive front end tell you this new sedan was designed to deliver true driving enjoyment. With a stiffer chassis, retuned steering and suspension, as well as Active Torque Vectoring, the drive is also more responsive and more engaging than ever.

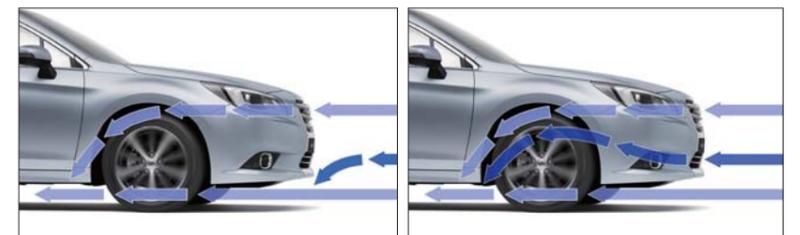

## Advanced design that captivates and invigorates.

You'll feel it at the first rush, that first grin as you enjoy immediate response and impressive control in the corners. The Legacy is more sporty and aerodynamic in style, which also contributes to its impressive fuel efficiency.

### Active Grille Shutter\*

The Legacy implements an Active Grille Shutter on the front of the car to improve fuel consumption. It closes to warm up the engine faster, and while driving, it also closes to reduce wind resistance and cold airflow. However when the engine gets hotter, it opens to cool off the engine.

Active Grille Shutter Closes

Active Grille Shutter Opens

\* Standard on 2.5i and 2.5i-S.

## Comfort without compromise.

Stretch out and enjoy. There's more room for everybody up front and in the rear as well in the all-new Legacy.

### Larger Sunroof\*

Enjoy a more open feel with the new larger sunroof. The inner sliding sunroof includes tilt-up and auto-reverse features to bring in more light as well.

\* Standard on 2.5i-S and 3.6R-S, optional on 2.5i.

### More Comfortable Rear Seats

The entire cabin is roomier including more room in the back with more space under the knees than the previous model, delivering more comfort for rear passengers. There's also a plush rear seat armrest to put them at ease.

## Details that deepen your connection to driving.

Designed to optimise your driving pleasure, the cockpit has a sporty sedan feeling with upgraded materials and technology throughout. With a sport contoured steering wheel, it's designed for more enthusiastic driving, while the new seats are there to hold the driver firmly in place with strong support, so that the driver can focus on their driving enjoyment.

### Illuminated meter

A blue illumination on the meters\*<sup>1</sup> helps improve visibility. Plus the LCD meter centre display is linked to the meter and shares helpful info like fuel efficiency, time, temperature, self-check maintenance alerts and even safety information.

### USB and auxiliary audio inputs

Plug your iPod\*<sup>2</sup> or other mobile music device into the standard AUX and USB input jack, and your music plays through the audio system of the Legacy. Plus with two USB input trims, you can charge two devices at once.

### Lighting

A blue illuminated interior light\*<sup>1</sup> lends a cool, sophisticated feeling to the Legacy. The pull cup holder and console box also have that welcoming blue glow, making them easier to find in the dark.

### Centre console box

The larger centre console box can hold more CDs now and even has specifically created holders for a coins, card and pen.

\*<sup>1</sup> Standard on 2.5i-S and 3.6R-S.

\*<sup>2</sup> Apple, iPhone and iPod are registered trademarks of Apple Inc.

## Intuitive technology that empowers.

Make your day-to-day brilliant. The ingenious design and technology of the Legacy work exceptionally well and are especially useful. A 7-inch centre touchscreen and LCD meter centre display give you access to it all. A new premium audio system with 12 Harman/Kardon Speakers or standard audio with six speakers are available for your enjoyment. Plus the entire infotainment system is compatible with smartphones, making it easy to stay connected.\*1

### User-friendly

Intuitive navigation makes the infotainment system easy to use. Its large, 7-inch centre touchscreen is easy on the eyes and its simple icons are easy to recognise.

### LCD meter centre display

The new LCD meter center display supplies the driver needed information at a glance without having to look to the side. It also features an efficiency display that allows you to track your fuel economy. It's the data you need to stay informed and confident that your drive stays as efficient as possible.

### Touchscreen control

The touchscreen is a useful way to select your music, just as you would on your smartphone. Simply connect your smartphone through Bluetooth\*\*2 or the USB port, and you can choose your music right on the touchscreen.

### Voice Recognition\*3

One shot voice recognition\*3 allows you to speak a simple command such as "CALL Paul" and the system obeys. You can also issue a command via the touchscreen as needed or buttons on the steering wheel.

### Harman/Kardon Audio System\*4

Featuring Harman/Kardon's latest technology, Green Edge, the premium audio system in the Legacy includes 12 Harman/Kardon speakers and improved acoustics for a richer audio experience.

### Rear Vision Camera System\*5

The screen also displays the rear-view camera, now with a super-wide view for better visibility. Its position has also been revised to create a more, centred natural view for the driver.

\*1 Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen while driving.

\*2 Bluetooth is a registered trademark of Bluetooth SIG, Inc. America.

\*3 Voice Recognition is compatible with select languages only and cannot accept all languages.

\*4 Standard on 3.6R-S, optional on 2.5i-S.

\*5 Standard on 2.5i-S and 3.6R-S, optional on 2.5i.

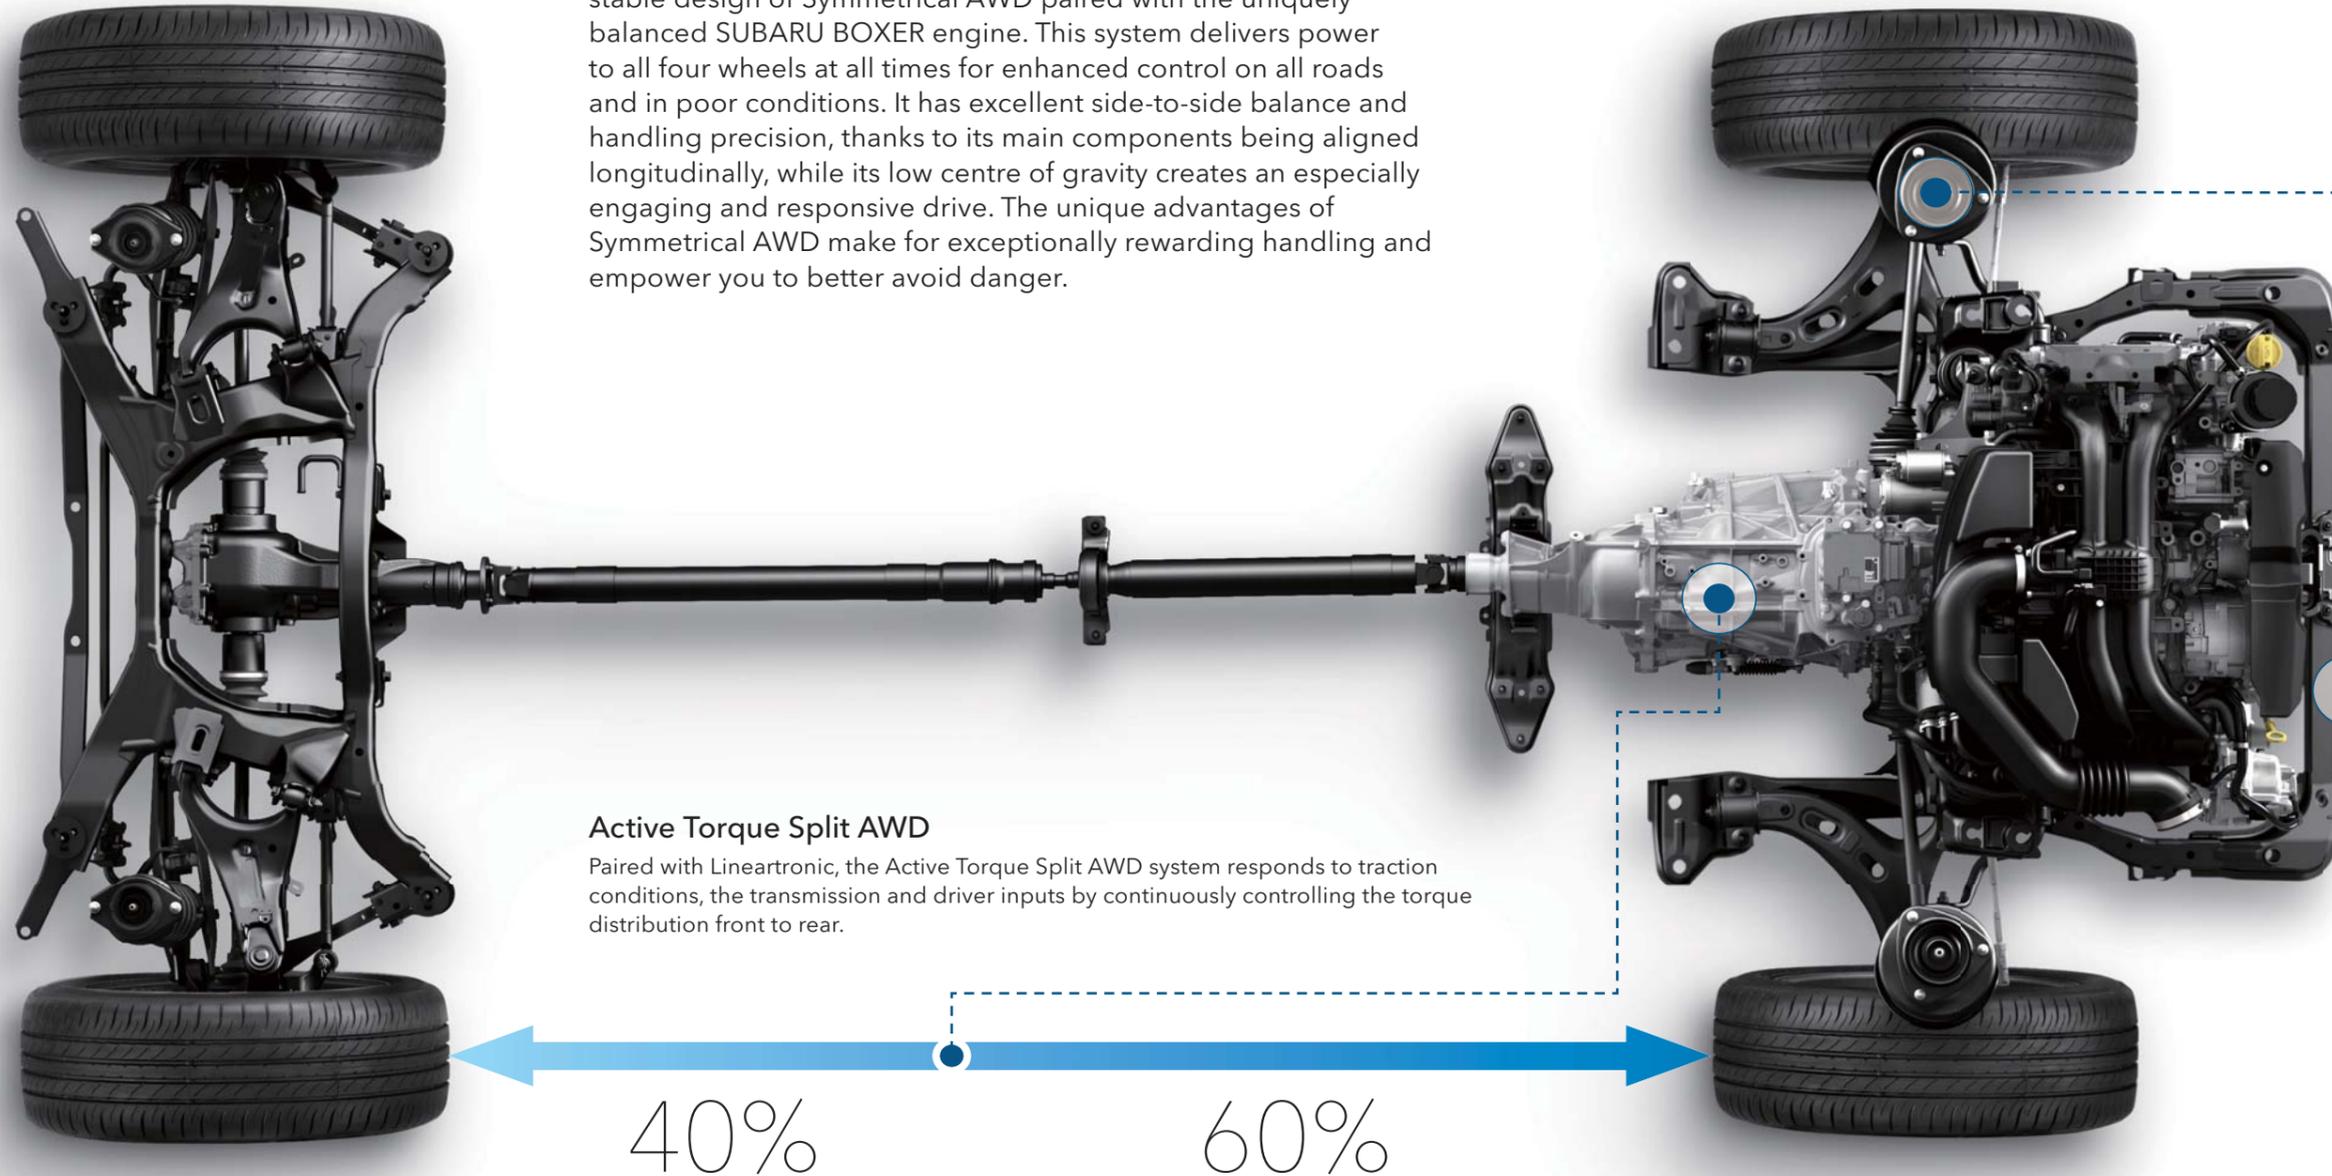

## Versatility that empowers.

There's more cargo room to accommodate your daily demands, and should you need more room, the 60/40 folding rear seats can also adjust in an instant to make room for longer items and extra packages even with a passenger still riding in the rear seat.

## Symmetrical All-Wheel Drive

Control leads to confidence, and stability creates an agility that excites in the all-new Legacy. Subaru vehicles are gifted at inspiring confidence behind the wheel, thanks to the inherently stable design of Symmetrical AWD paired with the uniquely balanced SUBARU BOXER engine. This system delivers power to all four wheels at all times for enhanced control on all roads and in poor conditions. It has excellent side-to-side balance and handling precision, thanks to its main components being aligned longitudinally, while its low centre of gravity creates an especially engaging and responsive drive. The unique advantages of Symmetrical AWD make for exceptionally rewarding handling and empower you to better avoid danger.

### Active Torque Split AWD

Paired with Lineartronic, the Active Torque Split AWD system responds to traction conditions, the transmission and driver inputs by continuously controlling the torque distribution front to rear.

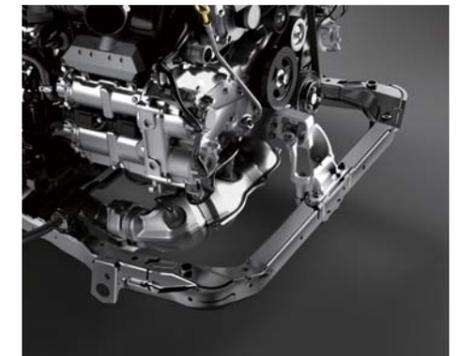

40%

60%

### Improved Suspension

Using improved front struts and rear shocks, the suspension has been finely tuned for an enjoyable balance between responsive steering and a smooth, comfortable ride. 2.5i-S and 3.6R-S are also equipped with STABLEX-Ride, a new valve system and larger diameter front strut cylinders, which have improved damping response at low piston speeds and permit damping suppression at high piston speeds for much better stability and ride quality with less body shake.

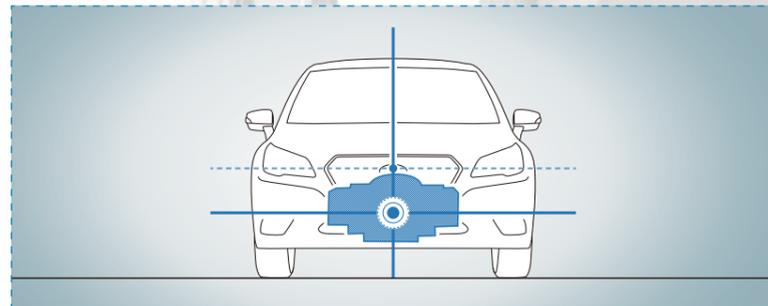

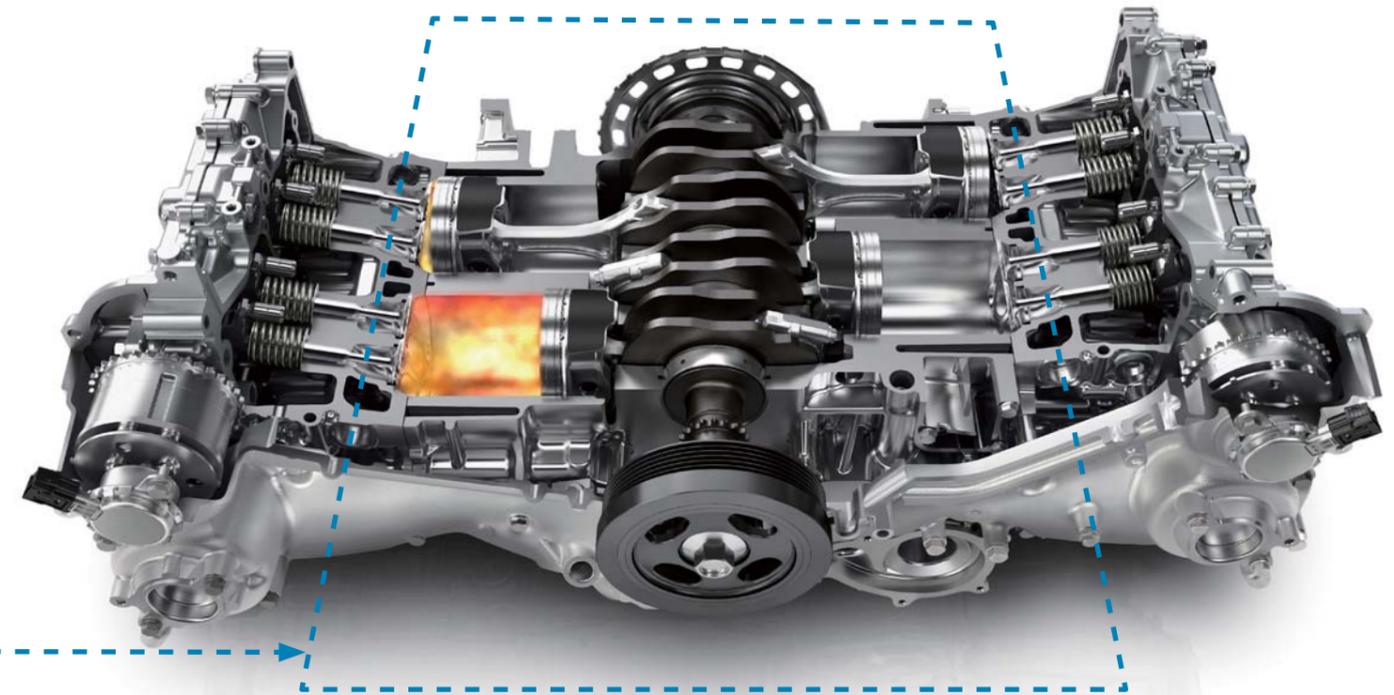

### Cradle Mount Frame

You'll enjoy more agile handling and a smoother ride in the Legacy thanks to its Cradle Mount Frame. And in a collision, it allows the engine to retract under the cabin, lengthening the front crumple zone.

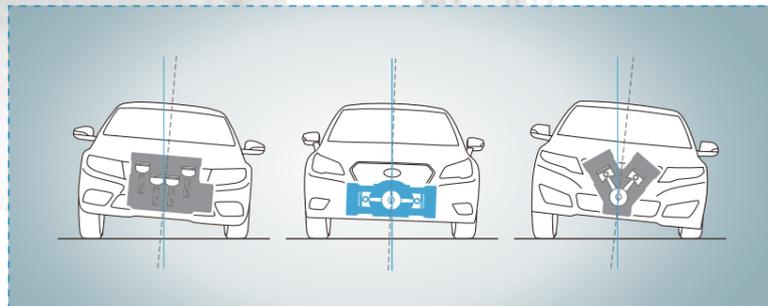

## SUBARU BOXER Engine

Few other cars drive with the self-assured confidence of the Legacy, so you won't be surprised by how uniquely it is accomplished. The horizontally-opposed configuration of the SUBARU BOXER engine places the pistons 180 degrees apart, for a lower, flatter profile than other engine types. This gives the engine, and therefore the overall vehicle, a lower centre of gravity and better sense of balance. Further, the pistons' opposing movements inherently counteract each other, naturally reducing vibration.

### Increased stability

Because the engine block has a flatter profile and sits lower in the chassis, the overall vehicle is more stably balanced and resistant to side-to-side motion than other designs.

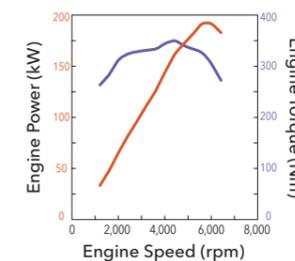

### Long-lasting performance

The engine's flat design is inherently rigid and self-balancing, generating less vibration than V-type or 4-cylinder in-line engines in the same class for durability and reliable performance.

## 3.6-litre DOHC SUBARU BOXER

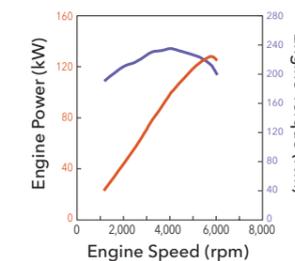

Not only is it the largest, but the 3.6-litre engine also offers smooth power delivery throughout, a quiet ride, low emissions and commendable fuel consumption. Light, compact and well balanced, it features the dual Active Valve Control System for impressive torque for when you need to pass another car or start from a stop at a red light or stop sign. To further reduce noise, vibration, fuel consumption and emissions, we also designed this engine with lower friction and more rigidity. And to help ensure your Legacy gets optimal fuel consumption at every speed, the 3.6-litre engine has been paired with the smooth and efficient Lineartronic.

**MAX OUTPUT:**  
191 kW (260 PS) / 6,000 rpm  
**MAX TORQUE:**  
350 Nm (35.7 kgfm) / 4,400 rpm  
**FUEL CONSUMPTION\*:**  
9.9 lit./100 km  
**CO<sub>2</sub> EMISSIONS\*:**  
230 g/km

## 2.5-litre DOHC SUBARU BOXER

Already naturally smooth and strong, we improved the Legacy's 2.5-litre DOHC SUBARU BOXER engine to make it powerful and fuel efficient. We also made specific refinements to improve its mid-to low-range torque so you'll have more power when you need it from a complete stop. You'll also find that it's more responsive around town and more satisfying on the highway, thanks to a remarkable 235 Nm of torque at a lower 4,000 rpm. When combined with the Lineartronic, it's more fuel efficient and clean-running, making it kinder to your wallet and the environment.

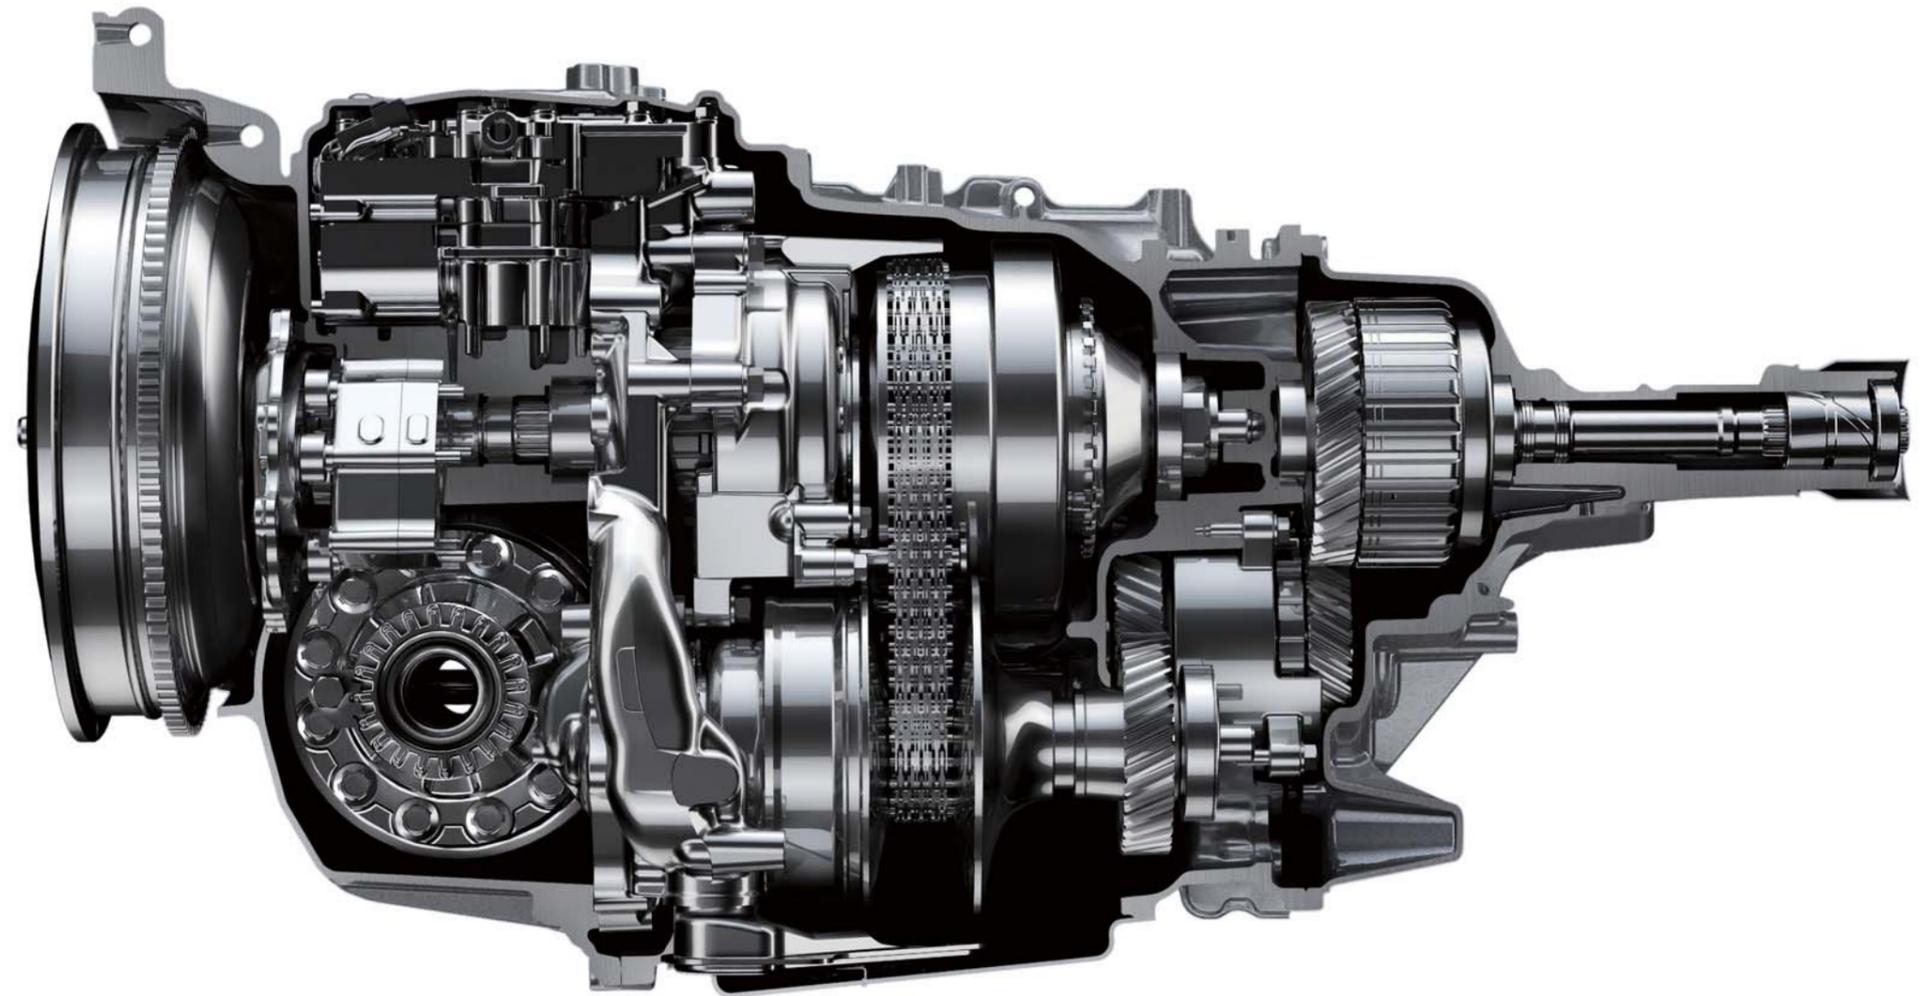

**MAX OUTPUT:**  
129 kW (175 PS) / 5,800 rpm  
**MAX TORQUE:**  
235 Nm (24.0 kgfm) / 4,000 rpm  
**FUEL CONSUMPTION\*:**  
7.7 lit./100 km  
**CO<sub>2</sub> EMISSIONS\*:**  
177 g/km

\* Fuel consumption and CO<sub>2</sub> emissions: According to ECE R101-01.

# SUBARU DRIVING TECHNOLOGY

## Lineatronic

Designed to get the most out of your SUBARU BOXER engine and Symmetrical AWD, the efficient Lineatronic Continuous Variable Transmission keeps the engine in its ideal power range to give the new Legacy its class-leading fuel consumption. New shift controls keep the ride light, smooth and responsive on both the 2.5-litre and 3.6-litre engines, while the Lineatronic in 3.6R-L also handles the higher-torque output with less mechanical noise for a smoother, quieter drive. The shift controls also have a new stepped variable control that stays in tune with changes in vehicle speed and engine speed, allowing the driver to feel shift points when accelerating to form a strong and comfortable connection between car and driver.

### Paddle Shifters

Paddle shifters are mounted on the steering wheel for fingertip control, giving you the power to select the gear ratio of the Lineatronic that best suits your driving situation. They also provide a 6-step manual mode for quick response on demand. The result is a sharper and sportier driving experience.

### SI-DRIVE

Based on your driving style, SUBARU Intelligent Drive (SI-DRIVE) can adjust the throttle and shifting response to give you immediate power and agility when you crave it in nearly any scenario.

### Sport Sharp Mode\*

When you want the powerful engine performance, select Sport Sharp Mode for quick acceleration and sharp response. Besides, use the paddle shifters and you take more control. For enjoying sporty driving anytime, this mode unleashes the maximum potential.

### Sport Mode

This highly responsive mode is well suited to all-round conditions with its immediate acceleration. It puts the enjoyment back into high-speed driving on motorways, or on winding roads.

### Intelligent Mode

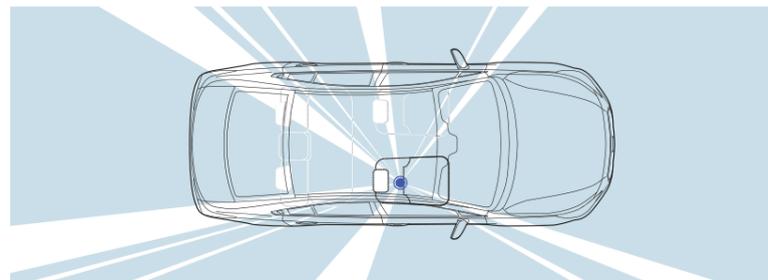

Offering gentle power delivery, this mode is ideal for cruising around town on local streets, covering long distances, or for the high fuel efficiency. It provides flexible control in the rain or on snowy roads.

\* Available only on 3.6R-S.

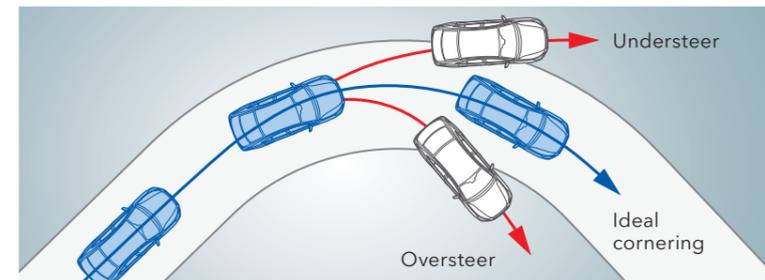

## The awareness to anticipate. The stability to avoid.

At Subaru, we believe the best accident is the one that never happens. That's why we've equipped the all-new Legacy with Symmetrical AWD to ensure control in nearly any weather condition and the SUBARU BOXER engine to enhance stability with its lower centre of gravity. The Vehicle Dynamics Control System and generously sized brakes also give the Legacy athletic reflexes to make it more nimble when you need to steer clear of danger.

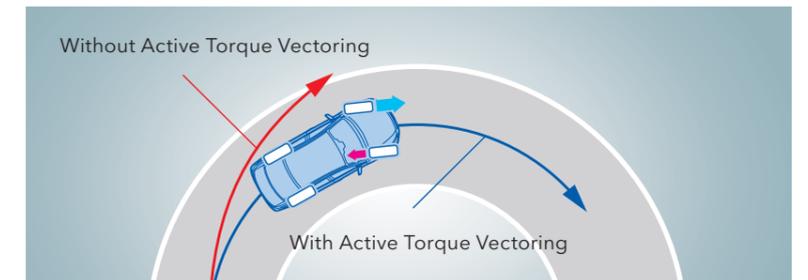

### Increased visibility

We adjusted the frame to increase your visibility and decrease your blind spot area. We also installed front quarter windows with door-mounted side mirrors to reduce the front blind spot for increased forward visibility.

### Vehicle Dynamics Control System

Vehicle Dynamics Control System monitors and analyses if the vehicle is following the driver's intended course via an array of sensors. If a tyre slips or a high speed turns the vehicles off its intended path, the AWD torque distribution, engine output and brakes at each wheel are adjusted to assist in keeping the vehicle on course.

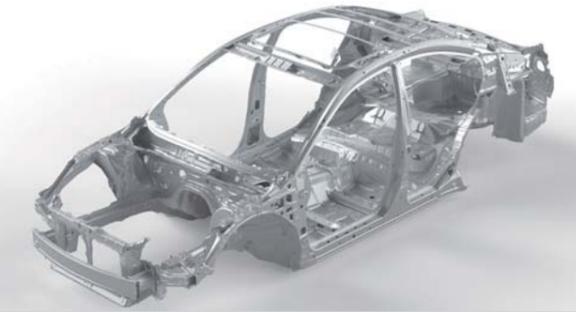

### Active Torque Vectoring

When cornering, Active Torque Vectoring applies the brakes and distributes less torque to the inside wheels and more torque to the outside wheels. It helps make a sharp turn and handling more precise. In combination with Vehicle Dynamics Control System, it helps to keep you out of harm's way, granting you a comforting sense of security.

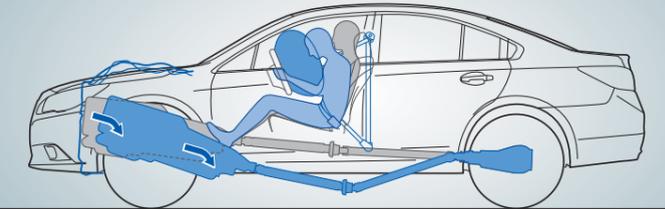

## All-around protection.

Knowing the importance of all that's aboard, the Legacy does a lot to protect you and your passengers with high-quality safety systems like 7 SRS\* airbags, Ring-shaped Reinforcement Frames and even a cabin-protecting layout. There may be risks in life, but we make sincere efforts to make sure that what you value most is well protected in your Legacy.

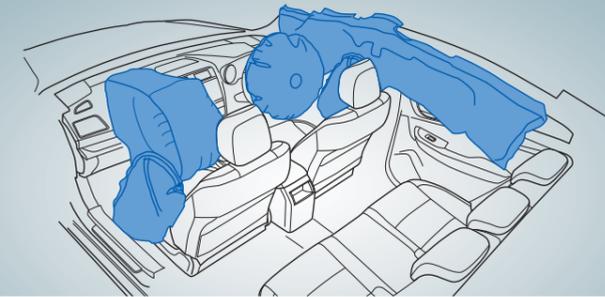

### Ring-shaped Reinforcement Frames

The Ring-shaped Reinforcement Frames strengthen the passenger cabin from the roof to the doors, pillars and floor. This design works to divert and dissipate impact energy away from the occupants in a collision. It also contributes to strengthening and lightening the chassis, leading to greater, reinforced protection.

### Cabin-protecting Layout

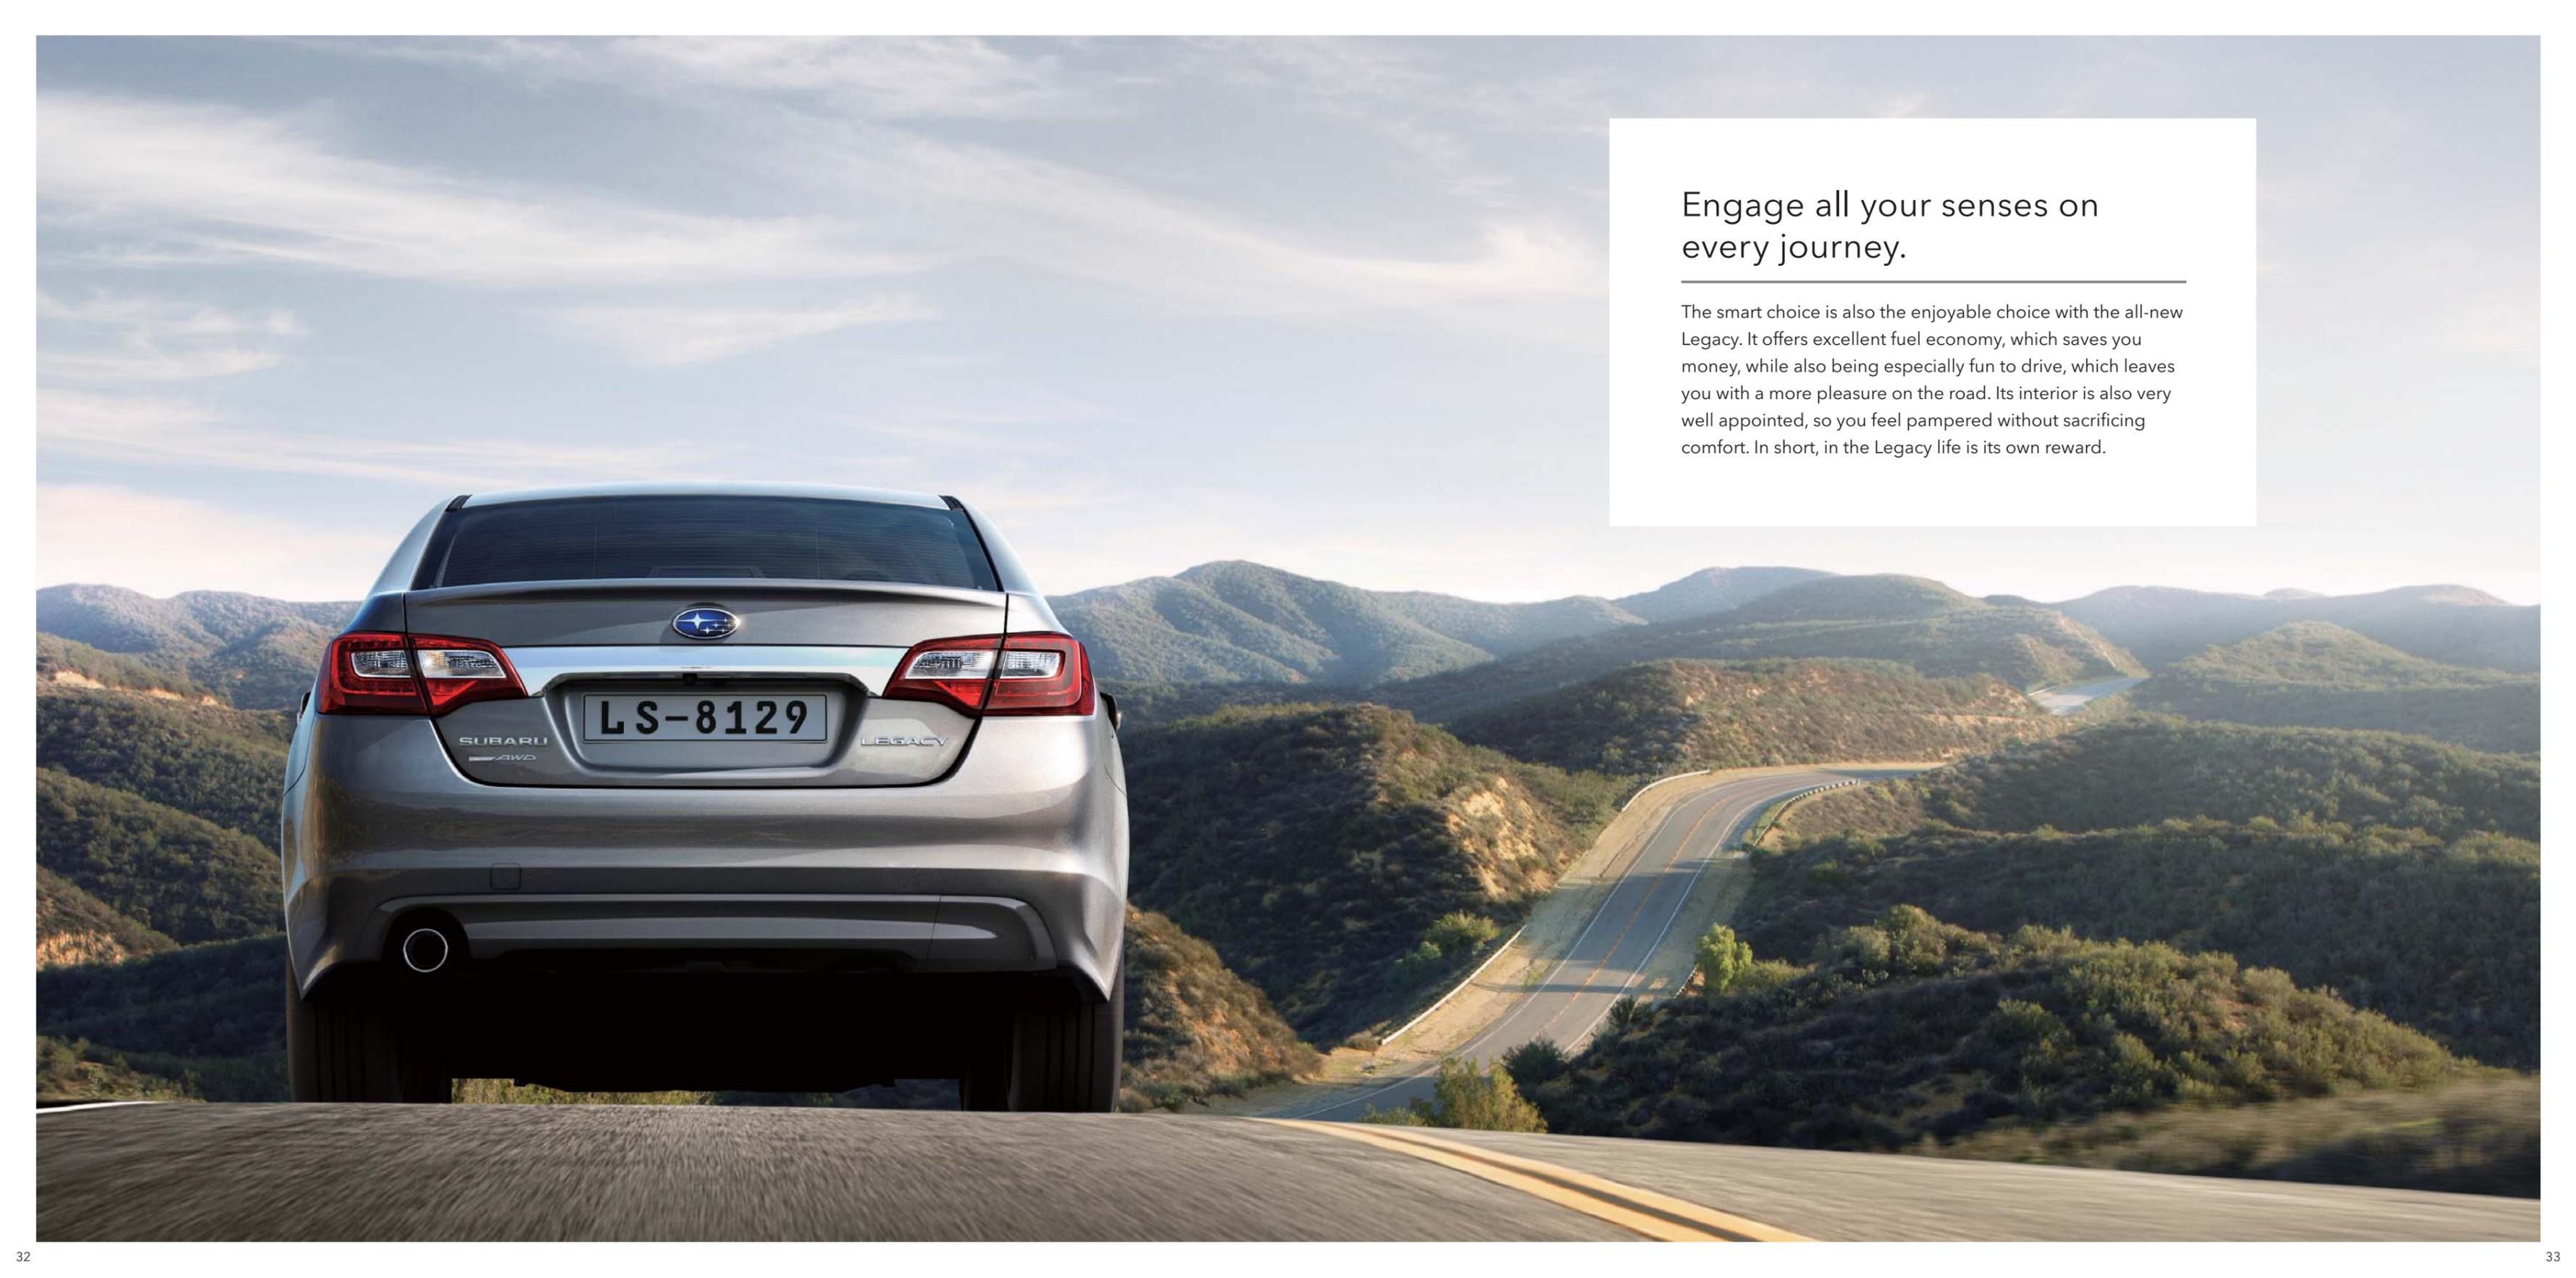

Every Subaru goes above and beyond common practice when it comes to your safety. In the event of a head-on collision, your Legacy's SUBARU BOXER engine and gearbox are designed to avoid moving into the cabin for your protection.

### Seats, seatbelts and SRS\* airbags

Standard on Legacy are front SRS\* airbags, plus front-side SRS\* airbags, curtain SRS\* airbags and knee SRS\* airbags. Height-adjustable front seatbelts feature pretensioners to hold passengers firmly in place, and load limiters that ease peak forces to the chest.

\*SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.

A rear view of a silver Subaru Legacy driving on a winding road through a mountainous landscape. The car is in the foreground, moving away from the viewer. The license plate reads 'LS-8129'. The background features rolling green hills and a clear sky with light clouds.

## Engage all your senses on every journey.

---

The smart choice is also the enjoyable choice with the all-new Legacy. It offers excellent fuel economy, which saves you money, while also being especially fun to drive, which leaves you with a more pleasure on the road. Its interior is also very well appointed, so you feel pampered without sacrificing comfort. In short, in the Legacy life is its own reward.

\* Optional on 2.5i and 2.5i-S.

## Exterior Feature

### 1 LED headlamps with auto leveliser\*<sup>1</sup>

Get maximum illumination the instant you turn these headlamps on, and the auto-leveliser will adjust the headlamps to keep them pointed at the correct angle for optimum visibility. The welcome lamps also turn on automatically when you're entering or exiting the car, to enable you to move safely even in the dark.

### 2 Twin tail muffler

Available on the Legacy 3.6R-S, these enlarged tail mufflers hint at the sporty performance within.

### 3 18-inch aluminium alloy wheels

Multi-spoke 18-inch aluminium alloy wheels have an Legacy-exclusive, rugged appearance and an aerodynamic design for improved fuel efficiency. Together with the 225/50R18 high-performance tyres, they make an attractive addition to the Legacy 2.5i-S and 3.6R-S models.

### 4 17-inch aluminium alloy wheels

Elegant 5-twin spoke 17-inch wheels are paired with 225/55R17 tyres on the Legacy 2.5i models.

### 5 Front fog lamps

These efficient lamps reflect less glare in fog for added safety, and are also helpful as daytime running lights.

### 6 Pop-up type headlamp washers\*<sup>1</sup>

To ensure the headlamps perform their best in poor weather, these pop-up washers use a high-pressure spray to clean them as needed.

### 7 Automatic rain sensing windshield wipers

When rainfall is detected, the available automatic windshield wipers will turn on, and adjust their wiping intervals and speed accordingly.

## Interior Feature

### 8 Keyless access and push-button start\*<sup>1</sup>

Your key fob grants you complete keyless access. To lock/unlock the front doors or tailgate, simply grip the door handles. To start the engine, push the button. Using a 5-digit pin code allows you to enter your Subaru even without your key fob.

### 9 Dual-zone automatic air-conditioning system with anti-dust filter

Both the driver and front passenger can set different temperatures and the dual-zone automatic climate control will adjust the air conditioning to keep it there.

### 10 Tilt-adjustable/Telescopic steering wheel

To help ensure you're comfortable while driving, the adjustable steering wheel tilts up and down, and telescopes in and out.

### 11 Cruise control

Set and maintain a specific cruising speed with one-touch cruise control, especially convenient on long drives on open motorways.

### 12 Aluminium pedals

Aluminium pedals are studded with grips for more sporty driving.

### 13 Rear ventilation system\*<sup>2</sup>

Offering added comfort for rear passengers, the Legacy models include adjustable rear-cabin air vents on the back of the centre console box.

### 14 Vanity mirrors with lids and lamps (for driver and front passenger)

We've provided illuminated and covered vanity mirrors for both the driver and front passenger.

### 15 8-way power adjustable driver's seat\*<sup>1</sup> (with lumbar support)

Find your ideal driving position with this 8-way power adjustable driver's seat.

\*<sup>1</sup> Standard on 2.5i-S and 3.6R-S, optional on 2.5i.  
\*<sup>2</sup> Standard on 3.6R-S, optional on 2.5i and 2.5i-S.

## Accessories

### Make your Legacy truly yours.

Tailor your Legacy to you and your lifestyle with Subaru accessories. Add convenience, enhance functionality, or personalise your Legacy's appearance, all with Subaru accessories designed with the same fit and quality as your Subaru vehicle.
